

Alcare® Extra Foaming Sanitizer

Advanced Hand Sanitizer with Extra Benefits

Make Hands Matter in the Workplace

Introducing a Higher Standard in Foaming Hand Sanitizer

Alcare® Extra Foaming Hand Sanitizer, the newest technology in waterless sanitizers from DebMed, was developed with healthcare workers' hands in mind. As the inventors of foaming hand sanitizers, DebMed created an extra effective formula that moisturizes the skin. In fact, 84% of users prefer the foam format¹ of Alcare® Extra!

The Alcare® Extra Effect

Alcare® Extra was formulated to be a global sanitizer to kill bacteria, viruses, fungi, yeast and mycobacteria. Our scientists found that 80% ethyl alcohol was the optimum amount to provide the broadest spectrum of efficacy – while still moisturizing and maintaining skin health.

In a High Frequency Usage Study² representing typical usage by healthcare professionals, Alcare® Extra was proven to prevent skin dryness and had no adverse effect on skin condition.

Many sanitizers create a film buildup after multiple uses, leaving hands feeling sticky and uncomfortable, which can lead to reduced product usage, poor compliance, and even difficulty in donning gloves.

DebMed scientists formulated Alcare® Extra with ingredients that enhance efficacy, mildness, and foam quality, but without unnecessary additives that can cause buildup on hands. Alcare® Extra leaves virtually no residue on the skin – a result we call **Invisi-Feel™**.

Percent Alcohol Concentration Efficacy Spectrum

After extensive research, DebMed scientists found that 80% Ethyl alcohol is the optimal concentration to provide the most effective sanitizer to address the broadest range of microorganisms.

We invite you to take the Alcare® Extra challenge and experience Invisi-Feel™ for yourself!

¹Independent Research Commissioned by Deb. ²Independent Lab Report BSL150505-301.

Alcare® Extra Advantages

- **Tested in accordance** with FDA clinical methods for Healthcare Personnel Handwash³
- **Broadest spectrum of activity** proven to eliminate up to 99.9999% of over 55 species of microorganisms including MDROs, yeast and fungi in 15 seconds⁴
- **Tested and shown to be effective** against enveloped and non-enveloped viruses plus mycobacteria within 30 seconds*
- **Invisi-Feel™** leaves hands feeling clean – there is no residue or sticky after-feel on the hands, even in high-frequency healthcare environments
 - No tacky film left on the hands
 - No polymer build up or “pilling”
 - No tightness of skin immediately after use
- **Clinically proven** - Moisturizing formulation prevents skin dryness and leaves skin feeling smooth and refreshed after use*
- **Hypoallergenic** - Fragrance-free and dye-free to minimize the likelihood of any adverse allergic reactions
- **Compatible with gloves** - Independently tested to prove the product can be applied to hands prior to donning latex, vinyl and nitrile gloves without affecting material integrity

Personal and Pump Bottle
Suitable for individual use and at the point of care.

Manual Dispenser & Cartridge
Lockable, reliable, low maintenance wall-mounted manual dispenser and hygienically-sealed 1 liter cartridge.

Touch-Free Dispenser, Cartridge & Stand
Lockable, reliable, long-life battery touch-free dispenser and hygienically-sealed 1 liter cartridge; suitable for wall-mounting or use on stands.

CODE	CASE QTY	SIZE
1	12	47mL Pump Bottle
2	6	400ml Pump Bottle

³Data on file | ⁴Test Report BSL150826-201: An evaluation of the antimicrobial properties when challenged with 58 micro-organism species using in-vitro time kill ASTM E2783-11 method.

*FDA does not allow for virucidal claims. Clinically formulated to meet or exceed international test standards EN14348, EN14476, ASTM E2011-13 and ASTM E1838-10.

ABOUT DEB GROUP

Deb is a world leader in occupational skin care and hand hygiene

DebMed is the dedicated healthcare division of Deb Group. Deb is a world leader in occupational skin care and hand hygiene. We have been providing dedicated skin care and hand hygiene solutions for over 80 years. Our purpose is to set higher standards in leading the fight against occupational skin disorders and the spread of infections. We are committed to working with hospitals who wish to engage and empower their employees to **Make Hands Matter in the Workplace.**

- In **2016**, in order to complement DebMed's Electronic Hand Hygiene Compliance System, **Deb Group purchased STERIS Corporation's hand hygiene** and surface disinfection business
- This **acquisition brought well known formulas** such as Alcare Plus®, Cal Stat® Plus, BactoShield®, CV® Medicated Lotion Soap, Kindest Kare®, Soft 'N Sure® and the Coverage® disinfection brands into the Deb Group
- The **STERIS Hand Hygiene and Surface Disinfectant business was integrated into DebMed**, the healthcare division of the Deb Group in order to provide added products focused on infection prevention

Deb Group is a part of SC Johnson, a privately held, family company and one of the world's leading manufacturers of products for cleaning, home storage, air care, pest control & shoe care.

By implementing the DebMed® Program you will be able to drive long lasting skin care behavior change in your organization to improve staff skin health, reduce risk and save money.
