

DebMed® BactoShield® 4% CHG Scrub Brushes

4% CHG Surgical Scrub Brush and Nail Cleaner

PRODUCT DESCRIPTION

Preoperative surgical scrub brush containing 4% Chlorhexidene Gluconate (CHG). CHG is known to provide rapid antibacterial action and has a persistent antimicrobial effect against a wide range of organisms.

WHERE TO USE

For use where a preoperative surgical scrub is required.

HOW TO USE*

- Wet hands and forearms to the elbows with warm water
- Clean under nails with nail pick provided
- Wet sponge and squeeze to work up lather
- Scrub thoroughly for 3 minutes, paying attention to the nails, cuticles and interdigital spaces
- Use the brush side to clean the nails, cuticles and interdigital spaces between the fingers and the sponge side to scrub the hands and forearms
- Rinse thoroughly with warm water
- Scrub for an additional 3 minutes using the sponge side
- Rinse hands and forearms thoroughly and dry with a sterile towel

*Reference product label for complete and proper instructions for use.
